

# A LIST of the Parliament of WOMEN.

**F**orasmuch as by the Laws of Nature, Women have a great share in the Creation, and that they eat, drink, sleep, talk, and do all the other Deeds of Nature, and natural Acts, as well as Man, having, to their great grief, seen the vile miscarriages of the Lordly and domineering Creature, Man, who hath very tyrannically excluded them from both Arts and Arms, and suffered none of them to use any other Rapier, but a Needle, nor any Lance, but a Distaff, nor suffer'd them to come into the Pulpit, or to the Bar, though they have believed always, and do still believe, that they are able both to preach and plead, as well as many Men, having the member of the Tongue as loosely hung, and as long, broad, and exact, in all its dimensions, as man's; and they have also had, and still have a firm belief and opinion, that their Hearts are as big, and contain as much spirits and stoutness as man's; and also that their Skulls are as full of brains, and have as much wit and subtlety, as any Man whatsoever. All this being lately and seriously consider'd; and having also read of the famous *Amazonian Kingdom*, on the Banks of *Thermador*, and how well they were able to rule and manage the Affairs of the Common-wealth; and also, that among their Noble Ancestors, the Ancient *Celts*, and *Saxons*, the Women used to sit as Judges, and had a great stroke in the Affairs, and management of the Common-wealth. And now seeing the many miscarriages of late of the Men of this Kingdom, and that they have not ordered their Affairs to the content of all; and believing, they could manage Matters much better, they have, with one Consent, laid their Heads together, and resolved to congregate themselves, and to meddle with the Affairs of the Common-wealth, and to place themselves at the Helm of Government, and to endeavour to regain their long lost Liberty. And having lately searched all the Records of *Utopia*, they found an Ancient Writ of Queen *Mabs*, which they have sent to all Parts, both of City and Countrey, for the Women to choose their Representatives, forthwith to repair to *London-Bridge*, and there to sit, and order the Affairs, for the Good of the People, and for the Honour, Welfare, Reputation and Benefit of Woman-kind. In pursuance of this Ancient Writ of Queen *Mabs*, the several Places both in City and Countrey, have chosen their Female Representatives, a List of whom, as they came to our Hands, are here published.
